4. First Aid Measures

Eye : Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

Skin : Take off contaminated clothing. Wash with plenty of soap and water for several minutes. Call a poison control center or doctor for treatment advice.

Inhalation : Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Ingestion : Unless advised otherwise by a poison control center or doctor, have the person rinse mouth with water, if able. Do not give anything by mouth if unconscious. Immediately call a poison control center or doctor for treatment advice. DO NOT INDUCE VOMITING.

Indication of Immediate Medical Attention and Special Treatment Needed : Treat symptomatically. Contains aliphatic hydrocarbon oils - severe aspiration risk if swallowed and enters airways. Do not induce vomiting.

Specific Hazards Arising from the Chemical : Can be made to burn even though flash point is greater than 200 Degrees F. Combustion may produce carbon monoxide and asphyxiates.
Special Fire Fight Proc : Wear positive-pressure self-contained breathing apparatus and full protective clothing.

6. Accidental Release Measures

Personal Precautions : Keep unprotected and unnecessary personnel out of spill area.
Protective Equipment : Protective eyewear, impervious gloves, impervious apron and footwear. Respiratory protection not needed if area is well-ventilated. Eyewash and emergency shower should be available in work area.
Emergency Procedures : Dike and contain spilled product. If uncontaminated, collect and place in suitable containers for reuse.
Methods and Materials for Containment and Cleanup : If contaminated, absorb spill with clay, sand or sawdust. Place in a chemical waste container for proper disposal. Spill area will be quite slippery.

7. Handling and Storage

Precautions for Safe Handling : Keep out of reach of children. Keep in original container, tightly closed. Do not contaminate water supplies.
Conditions for Safe Storage : Store locked up. Store in a cool, well-ventilated place. Do not store with food, feed or other material to be used or consumed by humans or animals. For optimal storage, store between 40 Degrees F. and 90 Degrees F.

8. Exposure Controls / Personal Protection

TLV/PEL : Not established for mixture.
Appropriate Engineering Controls : Normal room ventilation (mechanical) or outdoor use should be satisfactory.
